

The Carbon Cap is a ratcheting cap that removes the need of a carbon canister. This innovative cap is EPA and CARB compliant and provides unmatched performance with long lasting durability.

INCLUDES

- Combination valve
- Deflector
- Beaded Chain Tether

UNIQUE FEATURES

- 2-IN-1 Cap & Carbon Canister
- For applications with 1-3 liter tank

REASONS TO CHOOSE

- EPA/CARB compliant
- Removes the need for a separate carbon canister
- Common thread size
- Long-lasting durability
- Provides baffled vent
- Offers audible and tactile feedback of closure seal with a permanent tether
- Ratchet torque limits potential to over tighten cap
- For use on plastic or metal reservoirs

THREAD SIZE

- 2 1/4" modified buttress thread with 5 threads per inch
- Modified buttress thread allows for expansion and contraction of filler neck

MATERIAL

- Nylon 6

GASKET

- FKM
